Summary

A burgeoning developer fresh from 4+ years of experience in customer service, strategic planning, and creative design. Self-motivated and committed to delivering high-quality work and outcome focused thinking. I want to utilize my growing programmer skills to build effective and useful products while leveraging my personal skills to improve client and colleague experiences.

Applications Developed

Final Transmissions — Live | Github

Group Project, Storytelling application with the use of augmented reality (**AR**) and **Geolocation**

- Created local user authentication using **Node.js**, **Passport**, **Express**, **phpMyAdmin**, and **MySQL**
- Front end made with vanilla **Javascript**, **HTML5**, **CSS3**, **Axios**, and **Pug**
- Augmented reality achieved using **AR.js** and **A-Frame**
- Used **agile** process with **sprints** and **scrums** to discuss progress and development

Environmindful — Live | Github

2-Day Turnaround Project, An environmental dashboard which displays real-time information about air quality, energy usage, weather, and related current events

- Implemented several **API**'s using **AJAX** calls
- Able to change locations and retrieve information for a chosen area
- Visually displayed air quality data by configuring **Google Maps**
- Front end created with **HTML5**, **CSS3**, **Javascript**, and **jQuery**

Memory Match — Live | Github

Independent Project, A card matching game which tests the user's memory skills

- Front end built with **HTML5**, **CSS3**, **Javascript**, and **jQuery**
- Made use of **keyframes** for CSS keyframe animation and color changing gradient
- Used **MeisterTask** to reach development goals
- Observed many user-testing experiences to collect feedback for improvement

Experience

Feb 2016 - Aug 2017

Manager

Healthy Spot, Costa Mesa & Santa Monica

- Increased revenue by 33% through insightful planning, social media, and team building
